

Dear Hiring Manager at Point72 Asset Management, I am excited to apply for the Data Scientist role at Point72 Asset Management, where I can leverage my technical skills and passion for machine learning to drive investment decisions. With a strong foundation in computer science and a Master's in Computer Science from the University of Cincinnati, I am confident in my ability to design, develop, and deploy models and tools to support portfolio managers, researchers, and other data scientists. My experience working with large datasets, programming skills in languages such as Python, and knowledge of machine learning algorithms make me a strong fit for this role. As a skilled software engineer with experience in companies like ThoughtWorks, KAS Commerce, and Amazon, I have developed excellent communication and collaboration skills, which I believe are essential for success in this position. I am particularly drawn to Point72's commitment to innovation, teamwork, and continuous learning, and I am excited about the opportunity to work in a dynamic and supportive work environment. I have attached my resume, which provides more details about my experience and skills. Thank you for considering my application. I look forward to the opportunity to discuss my qualifications further. Sincerely, Supraja Srikanth
