Dear Hiring Manager at Palantir, I am excited to apply for the Forward Deployed Software Engineer role at Palantir, where I can leverage my technical skills and passion for data-driven insights to drive innovation and customer success. With a strong foundation in computer science and experience in software development, data integration, and data analysis, I am confident in my ability to make a meaningful impact at Palantir. My experience as an Application Developer at ThoughtWorks has equipped me with the skills to engineer scalable and reliable software applications, and my proficiency in programming languages such as Java, Python, and JavaScript has allowed me to develop a wide range of software solutions. I am particularly drawn to Palantir's mission to help organizations make better decisions through data-driven insights, and I am excited about the opportunity to work with customers to integrate and analyze their data. My excellent communication and problem-solving skills, combined with my experience working with internal stakeholders and customers, make me a strong fit for this role. I am impressed by Palantir's commitment to innovation, teamwork, and continuous learning, and I am excited about the opportunity to be part of a global company that values these principles. Thank you for considering my application. I am excited to discuss my qualifications further and learn more about the team at Palantir. Sincerely, Supraja Srikanth
